

International Healing Foundation
Statement Regarding the Uganda Proposed Anti-Homosexual Legislation
December 2, 2009

The mission of the International Healing Foundation is to provide counseling for those who experience unwanted same-sex attractions (SSA), including their family members, and to educate all people about the facts of homosexuality—1) no one is born this way, 2) no one chooses to have SSA, and 3) that changing from homosexual to heterosexual is possible.

We condemn any harsh and extreme punishment of persons who identify as homosexual or engage in homosexual behavior. Instead, we advocate education and counseling for those who experience unwanted SSA. We believe that all persons should have equal access to information about the facts of homosexuality—that no one is born this way, no one chooses to have SSA, and that change is possible.
